## PROFILE

---

Full Stack Engineer specialized in Java and JavaScript, experienced in developing and deploying microservices. Skilled in Agile and Scrum environments, CI/CD, code review, unit testing and technical documentation. Certified in JavaScript, Kubernetes and AWS Cloud.

## EDUCATION

---

### National Institute of Applied Science and Technology (INSAT)

Software Engineering Degree

Tunis, Tunisia

2019 – 2024

## PROFESSIONAL EXPERIENCE

---

### Grand Shooting

Full Stack Developer — DevOps

Paris, France — Hybrid

Nov 2024 – Present

- Developed and deployed Spring Boot microservices integrated with a React frontend for an image processing platform.
- Implemented REST APIs with Swagger documentation; containerized services with Docker and Kubernetes.
- Built CI/CD pipelines (GitHub Actions) with automated tests and multi-environment deployment.
- Migrated the infrastructure to a public cloud provider; diagnosed low-level server issues (networking, storage, OS) to keep MTTR low.
- Performed code reviews, took part in Agile ceremonies and incident tracking.
- **Technologies:** Java, Spring Boot, React, Docker, Kubernetes, MySQL, Redis, ArgoCD

Full Stack Developer — Internship (Asnières-sur-Seine)

Mar 2024 – Sep 2024

- Built a web tool to view and annotate 3D files (glTF, USDZ), with FTP export of video and 3D annotations.
- Optimized image processing with sharp and ImageMagick; containerized and deployed internal modules.

### ElateUp

Web Developer — Freelance

Remote — Poland

Sep 2023 – Dec 2023

- Developed React frontend features and backend fixes across several projects.
- **Technologies:** Java, Spring Boot, React, Firebase

Web Developer — Internship

Jul 2023 – Aug 2023

- Fixed 60+ GitHub issues on international projects and helped ship product releases.
- Wrote frontend unit tests with 90%+ coverage; cut production bug response time by 40%.

### PCP

Full Stack Developer — Freelance

Remote — Toulouse, France

Jan 2023 – Mar 2023

- Designed, built and deployed a microservices application with a team of six (Java Spring Boot, React).
- Set up Docker and CI/CD pipelines with GitLab CI.
- **Technologies:** Java, Spring Boot, React, PostgreSQL, Git, AWS

### Upkurs

Project Manager — Freelance

Tunisia

Sep 2022 – Jan 2023

- Managed a technical team of 7 to develop an e-learning application; applied Agile methods.
- Migrated the platform to the cloud, reducing operating costs.
- **Technologies:** Angular, NestJS, MongoDB, GCP

Frontend Developer — Internship, then part-time

Jun 2022 – Aug 2022

- Integrated payment providers (ClicToPay, Flouci) and automatic posting to Facebook, Instagram and LinkedIn.

### ELYADATA

Software Tester — Internship

Tunis, Tunisia

Jul 2022 – Aug 2022

- Wrote unit and end-to-end tests for web applications with Selenium and Cypress.
- **Technologies:** Python, Docker, FastAPI, Selenium, Cypress

Data Science Intern

Jul 2021

- Built a containerized web app that extracts a Facebook post's content from its URL and stores it.
